

Dear ACP Parents,

The Spring weather is gorgeous! I hope you can get outside for some fresh air and exercise with your kids each day.

Because I don't feel like we need to reinvent the wheel, I wanted to share this great resource with you that one of our teachers found. These are all great activities you can do with items found around your house and you can adapt them as necessary. <https://www.prekinders.com/home-learning-for-pre-k/>

Remember, it's okay if your kids are bored sometimes! It's something they are not used to in our busy, go, go, go world, but they can learn a lot when they get bored. They learn to explore, imagine, make up games; they learn to think for themselves and make discoveries. Yes, your house will probably get messy, but you'll learn so much about how your child learns.

I wanted to say a special THANK YOU to all our parents who are doctors, nurses, first responders, pharmacists, grocery store workers, etc. Those of us staying home appreciate all you do to help others!

Blessings,

*Barbara*
